

CT Medical Trailers

Mobilize Your Patient Care

CT Medical Trailers

Armor Mobile Systems designs and builds custom mobile CT trailers for many medical practices, universities, government agencies, and other organizations.

We understand the specific requirements of sensitive medical and x-ray equipment. Our vehicles are vibration tested and temperature tested to meet or exceed all equipment manufacturers' specifications. Our sturdy construction is extremely important for your expensive equipment. Additionally, your patients and staff will feel very comfortable on our firm floors and with our "soft flow" air distribution.

Our CT Trailer floor plan is extremely popular and is designed to maximize patient volume while maintaining patient and staff comfort. We will work with your medical equipment providers to be sure we have optimized your space for your program needs. Whether you want a custom-built or pre-designed CT trailer, Armor Mobile Systems will always provide the best quality and best service in the industry with more than 100 years of combined staff industry experience.
